Autism Speaks is dedicated to funding global biomedical research into the causes, prevention, treatments, and cure for autism. They raise public awareness about autism and its effects on individuals, families, and society; and to bring hope to all who deal with the hardships of this disorder. They are committed to raising the funds necessary to support these goals.

Please come in and support this worthy cause that affects 1 in every 110 children and 1 in every 70 boys. Unfortunately at this time we all know someone who has been affected by this disorder. Together we can make a difference!
